Company: Harrington Starr

Location: London Area

Category: other-general

C#.NET Developer (React) C#.NET, React, SQL Server, CI/CD, Docker and Kubernetes, AWS .NET Core, Team Leadership, Perm Role - £85000 - £140000 plus bonus and benefits. Harrington Starr has partnered with an Investment Bank whom are looking to hire a Full Stack C#.NET Developer with experience with React on the UI side to come and work on a Greenfield project for a Front Office Trading Desk for Futures and Option Trading. This is a great opportunity to join a Tier 1 Investment Bank and help shaped out, grow and management of a new Software Engineering Development team for a company based in the City of London. You will work directly with their clients and help solve complex problems, plan and execute weekly / month Sprints within development. This role will require you to be technically hands on and manage both internal and external relationships with Engineers and the business. The role will require you to work on an Front Office Trading environment alongside Traders, Sales and Quants working on a Analytics, Pricing and Risk Platform for Futures and Options Trading. Key Skills: · Extensive Hands on Development with the Microsoft Stack. C#.NET · Experience with React and JavaScript / TypeScript. · Extensive experience with CI/CD · Experience with Docker and Kubernetes · Strong Database knowledge with SQL Server. · Experience with AWS Cloud Technologies · Excellent verbal and written communication skills · Strong academic background with a BSc in Computing, Science, Engineering or Mathematics · Experience with Financial Services and knowledge of Trade Lifecycle This role is a Hybrid Set up with an Office Location based in the City of London. You will join an existing team of Software Engineers and work on a Trading Desk. You will be in for forefront of a major Trading application that is used by 500 plus users on

the main trading floor. Experience in a Front Office is an advantage but not necessary however knowledge of Futures, Options, Swaps and Trading lifecycle will help you progress into this role. This role will suit a Lead Software Engineer with expert C#.NET Development who is looking to move their career to the next step. Please note, this is a Hands On C# React Software Engineering Role and you will still be required to programme on a daily basis. In return this client will offer you a highly paid basic salary, plus bonus and a host of other benefits. To find out more, please apply.
