

Senior Structural Design Engineer

[Apply Now](#)

Company: RPS Group

Location: Milton Keynes

Category: other-general

This is an exciting role for an individual looking to progress their career as a Structural Engineer within our industry leading team where we have an excellent reputation, offering a wealth of expertise in all sectors of the built environment.

Assist Associate Director / Director in management of structural engineering team

Independent management of projects / project team

Financial responsibility for your own projects

Preparation of fee quotations / Invoicing

Management of staff and other consultants.

Further develop the team of engineers and technicians.

Working in collaboration with senior stakeholders and clients

Site visits and undertake structural surveys, investigation and repair schemes for structures from fires to foundation issues.

Who we're looking for

To be successful in this role you will most likely have a degree (or equivalent) in Civil or Structural Engineering and will ideally be working chartership or already chartered with ICE, or IStructE or equivalent or progressing towards chartership. Additionally you will:

Be experienced in the design of foundations, masonry, concrete including detailing, steel and

timber structures to eurocodes.

Be experienced in the residential market including traditional construction as well as framed structures.

Show market commercial awareness with knowledge in financial management of projects, development of clients and ability to assist in the project appointment process.

Preferably be experienced in structural investigations of low-rise residential properties, medium rise residential and commercial markets.

Be familiar with Tekla software (Tekla designer and Tedds) and ideally with Autocad/Revit

Show strong leadership skills to establish authority and influence both internally and externally to the company.

Demonstrate previous Management experience would be advantageous

Have the ability to make decisions

Be motivated with initiative and comfortable with autonomy with an appetite to drive innovation

What's in it for you?

We're an accredited training provider – from entry level to master's degree level professional qualifications in leadership & management and executive coaching & mentoring, we support learning and development for everyone.

A personal development plan and a transparent career pathway puts you in the driving seat of your career and you'll be supported as far as you want to go.

We encourage and value different ideas, perspectives, and styles of thinking. We need a mix of experiences and skills to develop the most innovative ideas. We respect one another and recognise the potential and contribution of everyone. You'll be joining a diverse community and a company that puts its people first and prioritises their wellbeing.

We understand the need to work flexibly, with agile offices and hybrid working offered as standard, we're happy to talk about flexible working. This is a workplace that works for you.

A career here is far from ordinary. Here you're not a number, you're part of the solution.
