

Senior Structural Engineer

[Apply Now](#)

Company: Bennett & Game Recruitment

Location: Bristol

Category: architecture-and-engineering

Bennett and Game are currently seeking a Senior Structural Engineer for a client based in Bristol. Our client is looking for a Senior Structural Engineer due to a increase in work load and ambitions to develop the office further. The Senior Structural Engineer will be joining an office that has their employees at the forefront of their business's success and this is appreciated through company events throughout the year.

As the Senior Structural Engineer, you will be required to be client facing delivering a range of projects (residential, education, community and health, heritage, university and colleges) and procurement methods; traditional, design and construct contracts. As well as, resource allocation and management to complete jobs to agreed deadlines. It is envisaged that the successful candidate will have experience Managing and mentoring of staff.

Senior / Structural Engineer Position Overview

Provide innovative, sustainable, and practical structural engineering solutions across all projects, tailored to their respective stages and types.

Support the day-to-day management of engineers and technicians to ensure timely delivery of comprehensive and high-quality project information, including calculations, drawings, specifications, and other documents, within budget constraints.

Collaborate with various members of the design team to undertake multi-disciplinary design

and coordination activities.

Conduct thorough reviews well in advance of deadlines to facilitate timely amendments as needed.

Ensure all designs undergo independent checks by other engineers to rectify any errors prior to document issuance.

Prioritize health and safety considerations throughout the design process to minimize construction risks and exceed client and architect expectations.

Senior / Structural Engineer Position Requirements

Bachelor's degree in civil or structural engineering.

Proven working experience within the field of structural engineering.

Proficient with AutoCAD.

Decisive with excellent critical thinking skills.

Salary and Package to be discussed
