

Senior Structural Engineer

[Apply Now](#)

Company: Alfred Recruitment

Location: Exeter

Category: architecture-and-engineering

Job Overview

We are seeking a skilled and experienced Senior Structural Engineer to join our team. As a Senior Structural Engineer, you will be responsible for designing, analysing, and constructing various structures. You will work closely with architects, contractors, and other professionals to ensure the structural integrity and safety of projects.

Duties

- Design and analyse structures using engineering software and tools
- Prepare detailed drawings, specifications, and reports
- Collaborate with architects and contractors to develop structural plans
- Conduct site visits to assess existing structures and provide recommendations
- Ensure compliance with UK building codes, regulations, and industry standards
- Perform calculations to determine load capacities and stresses on structures

- Review project plans and proposals for feasibility and accuracy
- Provide technical guidance and support to junior engineers and drafters

Skills

To succeed in this role, you should have the following skills:

- Strong knowledge of building codes, regulations, and industry standards
- Proficiency in structural design software such as Revit, Tekla, and AutoCAD
- Experience with project management principles and practices
- Excellent problem-solving and analytical skills
- Strong communication and interpersonal skills
- Knowledge of CAD software for drafting purposes
- Familiarity with software for engineering calculations

If you are a detail-oriented individual with a passion for structural engineering and a desire to contribute to exciting projects, we would love to hear from you. Apply today to join our team of talented professionals
