Company: Calibre Search

Location: United Kingdom

Category: architecture-and-engineering

### Description

Senior Structural Engineer

£45, - £55, plus bonuses plus benefits

Manchester City Centre

A nationwide, multi-disciplinary engineering consultancy are looking for a Chartered or near-Chartered Senior Structural Engineer with an interest in building appraisal and structural investigation to join them in their Head Office in Manchester City Centre.

The company have 6 offices across the UK and their Manchester office is their Head Office and consists of Structural Engineer and Building Surveyors who are well-known for their expertise in complex civil & structural engineering, building facades, defect diagnosis, insurance claims and historic buildings.

The right Senior Structural Engineer candidate for this role will have a minimum of 6+ years' industry experience in a consultancy environment and be well-versed in site visits and client liaison. This is an excellent role for someone who is stimulated by getting out of the office and away from behind a computer screen.

There will of course still be an element of design engineering on both new-build and refurb projects amongst various sectors.

The company also provide an extremely flexible working-from-home arrangement for this role and you may only be required in the office a couple of times per week.

Responsibilities:

Undertake thorough site investigations, complete inspections, and identify and resolve any issues as appropriate.

Undertake project design from commencement to completion.

Represent the company at design team meetings.

Manage, encourage, support and motivate junior Engineers and Technicians in the process of project design.

Undertake appropriate Continuing Professional Development and maintain CPD records in accordance with the requirements of the Institution of Structural Engineers and/or the Institution of Civil Engineers.

Deliver high-quality designs, drawings, and reports using engineering materials including concrete, steel, masonry, timber, etc., together with soils, foundations and drainage, and in a form that can readily be checked by another member of staff.

Other responsibilities will include:

Manage your pool of resources effectively and efficiently to ensure successful outcomes for all projects under your remit.

Recognise the importance of clear communication with all members of the design and/or construction team regarding matters of structural safety, and keep up-to-date with information provided by CROSS (Collaborative Reporting for Safer Structures (see This role is paying £45, - £55, plus benefits for the right person and will depend on experience and Chartership (IStructE/ICE).

If this sounds like you, please contact Andrew Wilson at Calibre Search.

Calibre Search promote equality in the workplace and we welcome applications from all

suitably skilled or qualified candidates regardless of their sex, race, disability, religion/beliefs, sexual orientation or age. We act as both an employment agency and employment business.
