Site Chemist

Deeside, Flintshire

£-Attractive salary plus benefits

WasteRecruit have been retained by a leading environmental services provider to recruit a Site Chemist. Based at the company's waste transfer station in North Wales, your main duties will include:

- * Ensuring site permit conditions regarding waste inputs / outputs and treatment methods are adhered to.
- * Receipt, sampling, handling, segregation and storage of hazardous and non-hazardous solid and liquid wastes, in accordance with the site Environmental Permitting conditions and current Waste legislation.
- * Ensuring site H&S and environmental systems are adhered to.
- * Ensuring that all records are accurate and kept up to date.

- * Ensuring effective operation of a stock system for waste stored on site.
- * Ensuring effective operation of a system for the maintenance of the laboratory and plant equipment is in accordance with the manufacturer guidelines and relevant legislation.
- * Maintaining and updating local laboratory procedures and QC systems.
- * Maintaining and updating plant and laboratory risk assessments.
- * Ensuring all equipment is calibrated as per company standards.
- * Ensuring housekeeping standards of laboratory and plant are kept to a high standard.
- * Liaising and building strong relationships with customers, brokers, third party waste outlets and other relevant bodies (e.g., the Environment Agency/NRW).

Candidate requirements:

- * Educated to at least HNC level in chemistry or related discipline.
- * Numerate and computer literate.
- * Knowledge of H&S legislation related to the Company's activities (training will be provided).
- * Knowledge of Environmental legislation as related to the Company's activities.
- * Working knowledge of waste industry
- * Team player
- * Good communication skills
- * Able to work on own initiative.

Please note that less experienced candidates are also encouraged to apply as full training can be provided if required.
