Key skills required for this role

Site Engineer, MEP, M&E

Important

Site Engineer - Heathrow Airport

Job description

Position: Site Engineer - M&E/MEP and Demolition

Location: Heathrow Airport, London

Duration: 9 months+

Rate: £375/day

As a Site Engineer specializing in M&E/MEP systems and demolition, you'll play a critical role in ensuring the success of various projects at Heathrow Airport. Your responsibilities will include:

Overseeing the installation, maintenance, and repair of M&E/MEP systems across airport facilities.

Managing demolition projects with precision and adherence to safety protocols.

Collaborating closely with contractors, suppliers, and airport stakeholders to coordinate project

activities.

Conducting site inspections and quality control checks to ensure compliance with regulations and standards.

Providing technical support and troubleshooting assistance to resolve engineering challenges.

Requirements:

Degree or equivalent qualification in Civil Engineering, Mechanical Engineering, or related field.

Proven experience as a Site Engineer with expertise in M&E/MEP systems and demolition projects.

Strong knowledge of construction techniques, building codes, and safety regulations.

Proficiency in relevant software and tools for project management and engineering design.

Excellent communication, problem-solving, and teamwork skills.
