Job summary

A Site Supervisor is required to join the client team on the south east strategic road network.

Key skills required for this role

Site Supervisor, highways, civils, motorway, trunk road, highway

Important

Site Supervisor - highway / civil engineering

Job description

Our client have an excellent opportunity for a Site Supervisor to join their team in Operations. As a Site Supervisor, you will play a key role in the delivery of major maintenance and minor improvement schemes across the South East region. Reporting directly to the Works Manager, you will undertake construction surveillance and assurance inspections to verify the quality of works undertaken by external contractors.

Please note that you may be required to work predominantly unsociable hours, including nights and weekends, for which there will be paid overtime and/or an out of hours allowance.

This role can be based from their Maidstone, Basingstoke, or Guildford office.

You will also be required to drive as part of your role, and you will need to have a full clean driving license to be considered for this position and during employment.

What you'll be leading on

Assuring the completion of planned works to agreed standards and escalate any concerns to the Construction Assurance Manager (CAM), in line with agreed governance agreements.

Ensuring that all works are constructed in line with: CDM regulations, HSE Legislation, Chapter 8 requirements, Design Manual for Roads and Bridges (DMRB), and Manual of Contract Documents for Highways Works (MCHW) and in accordance with the drawings and specification as designed.

Ensuring Project Managers receive regular and timely feedback on scheme construction progress, risks, early warnings, design-related issues, and act as the initial point of escalation for any on-site issues that need to be resolved.

Acting as a liaison between all key supply chain partners and coordinating the delivery program, ensuring buildability reviews are carried out on all projects.

Maintaining good liaison with Construction Assurance Manager, Project Managers, and Commercial & Procurement colleagues, providing relevant and timely information on Early Warnings and Compensation Events.

Identifying, in consultation with CAMs and contractors, improvements which eliminate or reduce construction-related risks and identifying and managing the rectification of defects.

To be successful

Proven highway/structures and maintenance/construction experience; experience of working on high-speed Trunk Road/Motorway Networks is essential.

Good understanding of the DMRB, MCHW, Chapter 8, and CDM Regulations.

CSCS Card Holder, SSSTS or SMSTS Certificate is essential.

Ability to execute tasks independently yet work collaboratively within a team and respond to management guidance & support.

Computer literate with knowledge of MS Office Excel, Word, and Outlook.
