Small Works Installation Engineer – Fire Alarms

Salary: 40K + OT + Car + Full Package – OTE 50K+m

Location: Harrow

Established fire alarm installer are looking for a small works / install engineer to cover the West London and Thames Valley region. The role will require aspects of first and second fix installation, additions, upgrades and extensions, all in line with BS5839 fire alarm regulations. The client work with a wide range of conventional and addressable fire alarm systems, no security is required, but experience with emergency lighting would be an advantage. A wide-ranging product experience with various fire alarm panels would be a bonus, but not essential, as some training can be provided. There is no requirement to be on the call rota with this opportunity. The successful candidate must drive, have a checkable work history and good customer service skills. In return the client is offering an excellent salary and benefits package, with good stand by, over time, travel time and career progression opportunities. Please call or send in your CV for consideration to this excellent opportunity.
