

Software Design Engineer

[Apply Now](#)

Company: Serve Talent Ltd

Location: United Kingdom

Category: computer-and-mathematical

Job Title: Software Design Engineer

Location: Norwich, UK

Company Overview: My client, a leader in high-end manufacturing, is seeking a skilled and innovative Software Design Engineer to join their dynamic team in Norwich. With a strong commitment to excellence, they are at the forefront of technological advancements, and this is an exciting opportunity for a talented individual to contribute to our success.

Position Overview: As a Software Design Engineer, you will be a key player in our manufacturing processes, leveraging your expertise in C++ to design and implement software solutions. You will collaborate with cross-functional teams to ensure seamless integration of software into our clients high-tech manufacturing environment.

Responsibilities:

Design, develop, and implement software solutions for manufacturing processes.

Collaborate with engineers and stakeholders to understand project requirements.

Utilise C++ programming language to create efficient and reliable software systems.

Troubleshoot and debug software-related issues, ensuring optimal performance.

Work closely with hardware engineers to integrate software with manufacturing equipment.

Stay current with industry trends and advancements in software development.

Qualifications:

3+ years work experience within a similar role.

Knowledge in C++ programming language.

Strong problem-solving skills and attention to detail.

Experience with software-hardware integration in a manufacturing setting.

Knowledge of software development best practices and methodologies.

Excellent communication and collaboration skills.

Ability to adapt to a fast-paced and evolving work environment.

Education: A degree in computer science, software engineering, or a related field is preferred.

Location: Norwich, UK

How to Apply: If you are passionate about software design, please apply or contact Lewis Woollard direct on 01603 415 100.
