Software Developer

Company: Lead Forensics

Location: United Kingdom

Category: computer-and-mathematical

Full Stack Mid to Senior Level Software Developer - Fully Remote Available

Lead Forensics is a leading SAAS company with products in the B2B sales and marketing space. We're seeking a mid-level full stack software developer**(2+ years' experience)**to add to the teams that build our customer facing products. You'll be iterating quickly on our modern tech stack (NodeJS microservices, Vue, Redis, SQL Server and Snowflake) and deploying code to production (in AWS) on a regular basis as we respond rapidly to customer requirements.

You don't need to have experience with full stack JavaScript to apply, many of our successful candidates come from a C# or Java background.

Key Responsibilities :

Turning user stories into code running in production as part of a scrum team

Ensuring the quality of what you and the team build

Supporting the product that the team has built as it runs in production and resolving issues

Contributing to the design, architecture and implementation decisions for the product

The ideal candidate will have

A strong general aptitude for programming and problem solving. You'll need to pick up new tools and techniques quickly and use them to solve problems.

Experience across all areas of full stack development, ideally developing large scale

SaaS platforms.

Experience developing with SOLID principals and dependency injection.

Experience of working in a mature CI/CD environment, continuously deploying stories every day.

Experience with automated testing and quality assurance.

An understanding of how to build systems that perform well at scale.

Enthusiasm for building secure systems and implementing security best practices.

Enthusiasm for driving high standards in software development and working with like-minded people towards achieving ever higher levels of efficiency and performance.

Excellent interpersonal and collaboration skills.

A technical/computer science degree or equivalent professional experience.

What we offer in return :

Fully remote working (hybrid working in our Cosham office is an option if preferred).

Be part of a fantastic company culture; we all display our Company DNA's, foster a "One Team" and 'Growth' mentality.

Give back to the wider community with volunteer days, fundraisers and charity events.
