Company: Olive Jar Digital

Location: United Kingdom

Category: computer-and-mathematical

Permanent, Full-time UK-wide SC Clearance essential

**About the role** As a member of our technical delivery team you will collaborate closely with multidisciplinary teams to architect and deliver cutting-edge digital solutions tailored to our clients' unique needs. With a focus on excellence and a passion for pushing boundaries, you will contribute to Olive Jar Digital's mission of catalysing transformative change in the digital landscape.

**About Olive Jar Digital** As we grow, we empower our teams to develop their roles and functions and offer support to get you from where you are now, to where you want to be. Moving towards our 9th year, we are now an established brand, building digital products and services and championing the provision of expert talent to enhance customer and in-house teams, satisfying all user needs. We are a professional, fun, fully Inclusive and diverse digital consultancy, valuing everyone's opinion. With a huge growth plan over the next two years, we are looking to expand our client facing delivery team with designers, developers, and testers as we continue to expand our project portfolio.

**Responsibilities** Collaborate with cross-functional teams to design, develop, and deploy software solutions. Write clean, maintainable, and efficient code following best practices and coding standards. Participate in Agile ceremonies such as sprint planning, daily stand-ups, and retrospectives. Conduct code reviews and provide constructive feedback to peers. Debug and troubleshoot technical issues, and implement solutions in a timely manner. Stay up-to-date with emerging technologies and industry trends, and propose innovative solutions. Document technical specifications, system architecture, and codebase changes. Demonstratable experience of successfully contributing to the delivery of Digital products and projects in the Public Sector. Proven experience as a

Software Developer, preferably in web application development projects. Strong proficiency in programming languages such as Python and Django Familiarity with relational and non-relational databases (e.g., MySQL, PostgreSQL, MongoDB). Strong communication and interpersonal skills, with the ability to collaborate effectively with cross-functional teams.
