

United Kingdom Jobs Expertini®

Software Developer

[Apply Now](#)

Company: Tracsis

Location: United Kingdom

Category: computer-and-mathematical

Our talented people are creating the technology of the future. Our purpose is to empower the world to move freely, safely and sustainably. Our approach focuses on combining leading edge software and hardware knowledge, data capture, analytics and industry expertise to generate insights and fast-to-market products and services. We use C# and .Net Framework to develop the applications you'll be working on. These applications use sophisticated algorithms capable of planning large scale passenger railways. Our software is desktop and cloud based. We're investing in cloud technologies to advance the products in new directions, taking advantage of the novel features available. We use GitLab for our code repository, run continuous integration and to operate continuous delivery pipelines. We support our developers speaking directly to customers to develop relationships and understand first hand where the software fits into their jobs. Who you'll be? We know not everyone ticks all the boxes and we'll provide training on some of the areas if you're the right person for the role. A creative developer with a passion for technology. An experienced .NET, C# developer. An interest in modern software engineering practices and a desire to learn about, and possibly even contribute to, advances in the industry. If you have any experience or knowledge on the technologies below, then we would be interested in a chat; WinForms, Windows Presentation Foundation (WPF), NUnit, automated testing and deployment, infrastructure as code, cloud compute, micro service architecture, container services (Docker, ECS). What we'll give you You'll join a diverse team with a friendly and relaxed culture. We encourage collaboration both with colleagues and customers. We have a supportive environment where innovation, fresh ideas and creative solutions are

encouraged and shared. Learning & Development opportunities
