

Software Development Engineer

[Apply Now](#)

Company: M-Tec Engineering Solutions

Location: Coventry

Category: architecture-and-engineering

Outside IR35

A globally recognised high volume manufacturer are currently looking to strengthen their Engineering department with the appointment of a Software Development Engineer.

As Software Development Engineer, you will be designing, developing and implementing software based control systems to ensure hybrid products and technologies meet functional and performance requirements.

Further responsibilities will include:

*Support the control system development and validation across all programmes from initial concept through to customer or production launch.

*Support the Applications team with technical input for customer enquiries.

*Act as a key point of contact for internal customers and external partners on control systems software for micro-hybrid programmes.

The successful candidate should have a degree in Electrical or Electronic Engineering.

You should have 8 or more years experience in software development.

If you believe you have the required skills and experience please apply now.

M-Tec Engineering Solutions is a leading supplier of Permanent, Interim and Project Management Recruitment Solutions to the Automotive and General Engineering sectors.
