

Software Engineer – Core Java – London

[Apply Now](#)

Company: Oxford Knight

Location: London

Category: computer-and-mathematical

Summary:

A globally leading cryptocurrency firm building a bleeding edge crypto exchange are looking for a London-based Java developer to join the team. Working in core Java and Kotlin on a Unix/Linux environment, the successful Java developer will be building low-latency, large-scale systems from scratch, in a highly agile, globally distributed environment.

Fostering a highly flexible remote working environment, whilst there is an established London office and team, the successful Java developer is welcome to work from home or join the team in office.

Requirements:

STEM education

Proficiency in Core Java

Experience with low latency, scalable software and distributed computing is a plus

Benefits:

Competitive salary, bonus and crypto

Highly flexible working environment in London

Extremely diverse culture and working alongside top engineering talent, globally.
