## Software Engineer - Python, Django

Location: Remote UK

Industry: IT

Salary: £60,000-£65,000

Tech Stack: Python, Django, Celery, MySQL, REST, Jenkins, AWS

Great opportunity for a talented Back End Developer (Python, Django, REST, AWS) to join a growing business working with leading companies, the public sector, private individuals, and business figures.

### The Company

Mid-sized business that works with a range of clients to strengthen, protect, and fine-tune their online profile in order to maximise their business potential.

### The Role

They are seeking a skilled Developer (Python, Django, REST, AWS) to work with product owners and business stakeholders to design and build solutions to their back-end systems.

This is a great opportunity to work with a modern tech stack (Python, Django, REST, AWS) developing and maintaining robust and scalable REST APIs.

The successful developer (Python, Django, REST, AWS) will be entrusted with working on business-critical projects. Some Front-End experience (JavaScript, React) would be a plus but not a requirement.

### Desired Skills
