Location: United Kingdom

Category: computer-and-mathematical

Really excited to now be working with a market leading EdTech business who are in their next phase of growth. I'm looking to speak to a Software Engineer with ideally 2+ years of commercial experience who is keen to work on a Business Management Software that has over 200,000 demanding customers!

It's a particularly exciting time to join this team as they are re-designing the software used and want talent people on their new journey. If you like the idea of working with new technologies that can impact young lives in a positive manner, then you're going to want to apply for this one.

Day to day activities:

You'll be working on a product which is an essential part of day-to-day life for over 200,000 monthly active users, and your work will completely shape how customers engage with their product. You'll need to understand the need for test driven methodology so that they can be sure they're delivering high quality code through continuous delivery.

Technical Knowledge:

TypeScript, React and / or React Native for their web and native mobile parental apps.

GraphQL and RESTful technologies to communicate between APIs NodeJS for their backend APIs and AWS for most of their infrastructure.

Benefits:

36 days holiday including UK Bank Holidays

Holiday buy and sell scheme

Completely flexible approach to work allowing you to work at home or at the office

Life Assurance and Critical Illness Cover

Bupa Health Cash Plan

Enhanced Pension Scheme

Interview Process:

2 stage process that involves an initial relaxed conversation over the phone to assess a cultural fit, then followed by a video call with CTO for the last stage.
