## Software Engineer

[Apply Now](#)

Company: IGA Talent Solutions

Location: United Kingdom

Category: other-general

IGA is working with a global software business that is seeking a Software Engineer with cloud services experience to join their team on a contracting basis. Responsibilities: Develop and maintain reliable, secure, and performant cloud services. Automate testing processes and advocate for agile methodologies. Apply cloud design patterns throughout the development lifecycle. Essential Qualifications: Proficiency in C# and AWS/GCP. Familiarity with both relational and NoSQL databases. Experience in REST API development and Agile practices. Proficient in GIT or equivalent version control. Desirable Qualifications: 3+ years of hands-on experience in cloud services. Expertise in databases like Postgres and Dynamo. Knowledge of CI/CD concepts and deployment pipelines. Experience with containerised workloads and CAD applications. The work will run for 12 months in the first instance, though extensions are likely. In terms of location, this is a fully remote opportunity, though you are welcome to work in their Sheffield office if you wish. The work is paid on a day-rate basis with a rate in the region of £300 per day, outside IR35. The client will move quickly with this hire. Please send your CV to register your interest.
