Company: InfoSec People Ltd

Location: United Kingdom

Category: other-general

Job Title: Software Engineer Location: Remote (Occasional travel to London, Cheltenham or Manchester) Type: Full Time Salary: Up to £70,000 (depending on experience) Our client, a leading company in the field of secure collaboration solutions, is seeking a talented Software Engineer to join their team. They build scalable, secure solutions for highly security-conscious organizations, enabling them to collaborate on their most sensitive information. The successful candidate must be a British national and be eligible for security clearance. As a Software Engineer, you will have the opportunity to architect, design, and develop reliable and secure software systems. You will collaborate with a talented, distributed team to deliver solutions that meet the needs of our client's customers. The ideal candidate is adaptable, curious, and driven to create great engineering solutions.

**Key Responsibilities:** Architect, design, and develop secure and scalable software systems  
Contribute to team working practices and the wider organization's software engineering practices and processes  
Consider the user at every step of the delivery process, from understanding the need to designing and delivering the solution  
Take ownership, with the team, of software systems from conception and development through live operation and decommissioning  
Continuously evaluate and improve how the team delivers  
Always be learning, experimenting, and ready to try new approaches  
Support and mentor junior team members as required

**Required Skills and Experience:** Strong experience with at least one of the following: JavaScript, TypeScript, React, Java, Spring Frameworks  
Experience with cloud technologies such as AWS, Docker, and Kubernetes  
Understanding of the impact of engineering decisions on security posture  
Ability to adapt quickly to new technologies and tools  
Excellent problem-solving and communication

skillsExperience working in a distributed team environmentMust be a British national and eligible for security clearanceNice to Have:Experience with Python, Langchain, GitLab CI, or PulumiFamiliarity with databases such as Postgres, MongoDB, Redis, Neo4j, or ElasticBenefits:Competitive salary, up to £70,000 (depending on experience)Flexible working hours and remote work optionsHome office budget of £1000 to kit out your home officeOpportunities for professional development and growthCollaborative and supportive team environmentFor further details please contact [Matthew@infosecpeople.co.uk](mailto:Matthew@infosecpeople.co.uk) or click [Apply](#)
