

## Solution Architects Thames Valley, UK

[Apply Now](#)

Company: Chronos Consulting

Location: United Kingdom

Category: computer-and-mathematical

### Job Description

Our client is a leading in-memory computing platform for fast data analytics and extreme transaction processing in banking, financial services, and e-commerce.

They are looking for Solution Architects in the Netherlands, Greater London, and Singapore. These are home-office based roles with travel.

Requirements:

- 1) 2+ years in customer-facing roles – pre-sales, solutions architect, etc.
- 2) 7+ years in building enterprise solutions with Middleware, Big Data tools, and frameworks such as Spark, Hadoop, Cassandra, NoSQL, etc. as well as ETL like processing.
- 3) Previous experience with In-Memory Data Grids / Distributed Systems.
- 4) Proven experience working with various Databases: Relational and NOSQL.
- 5) Hands-on coding/scripting experience: Python / Java a must.
- 6) Experience working on/with Machine Learning / Data Science products such as Apache Spark and Tensorflow.
- 7) Degree in computer science or engineering
- 8) Willing to travel

Advantage:

Experience with Docker, Kubernetes – an advantage

Experience with Cloud-Native and Cloud Data Services such as – S3, RedShift, DynamoDB, Kinesis, EMR, etc – an advantage

Scala / .Net

Web development or JavaScript programming skills
