### **Overview of our organisation**

We're an independent healthcare provider, with established roots in muscular-skeletal health and diagnostics, founded by expert NHS clinicians who recognised a way to improve things.

We work with integrity. When it comes to collaboratively delivering care, relationships are key.

Whether we're interacting with each other, our partners or our patients, we're always open and honest. Every key decision is based on clear process and informed by evidence.

We act with empathy. Everyone who is here, is here because they care about people. We always try and put ourselves in the shoes of whomever we're interacting with and treat people with compassion and consideration.

We inspire with passion. It's hard work, but we absolutely love what we do. There's no room for a half-hearted approach to healthcare, it requires dedication, and that's what everyone here has. A Healthshare employee is enthusiastic, with a verve and panache that inspires others around them.
