Job Description:

SQL BI Developer

Remote with ad-hoc travel to the London office

We Put People First so you can Deliver Outstanding Service

We are looking for an **SQL BI Developer** to join our IT team where you'll be overseeing and developing our Business Intelligence solutions, with a primary focus on the Microsoft SQL Server stack. Your role is pivotal in providing data to both internal and external stakeholders for use in bespoke systems.

At Churchill, doing right is at the heart of our values. This is why we will provide you with all the tools, training, support and resources that you need to develop in your career.

As a SQL BI Developer you'll be:

Designing, developing and maintaining ETL processes for extracting, transforming and loading data from various data sources

Importing and integrating structured and unstructured data into data warehouses

Managing the SQL Server databases

Supporting and working with the Data team in the creation of visually creative and innovative dashboards

Collaborating with both the Business and Client Solutions teams to ensure robust reporting solutions are delivered for internal and external stakeholders

As a SQL BI Developer you'll have:

Minimum of 3 years' demonstrable experience working with SQL

Strong experience developing end-to-end BI solutions

Experience within an Azure SQL environment

Knowledge of DAX, SSRS, SSIS, TSQL and PowerBI

Excellent communication and stakeholder management skills

Ability to work to deadlines and juggle multiple tasks and projects, as well as multiple stakeholders

What we offer you

The opportunity to be part of one of the fastest growing specialist FM providers in the UK.

This means that as our teams continue to grow, so can you.
