## Sr. Medical Science Liaison ( MSL) UK

[Apply Now](#)

Company: Neurocrine Biosciences

Location: United Kingdom

Category: other-general

### **Who We Are:**

At Neurocrine Biosciences, we pride ourselves on having a strong, inclusive, and positive culture based on our shared purpose and values. We know what it takes to be great, and we are as passionate about our people as we are about our purpose - to relieve suffering for people with great needs, but few options.

### **What We Do:**

Neurocrine Biosciences is a neuroscience-focused, biopharmaceutical company with a simple purpose: to relieve suffering for people with great needs, but few options. We are dedicated to discovering and developing life-changing treatments for patients with under-addressed neurological, endocrine and psychiatric disorders. The company's diverse portfolio includes FDA-approved treatments for tardive dyskinesia, Parkinson's disease, endometriosis\* and uterine fibroids\*, as well as clinical programs in multiple therapeutic areas. For three decades, we have applied our unique insight into neuroscience and the interconnections between brain and body systems to treat complex conditions. We relentlessly pursue medicines to ease the burden of debilitating diseases and disorders, because you deserve brave science. \*in collaboration with AbbVie

### **About the Role:**

Interacts with key opinion leaders (KOLs) and healthcare decision makers to communicate and advance the scientific platform for therapeutic areas that are aligned with the Neurocrine corporate strategy. Supports company sponsored and investigator-initiated research, delivers clinical and pharmaco-economic presentations to payers, trains faculty for the speaker's

bureau, supports scientific congresses and is a resource for medical and scientific inquires. May also represent the company at identified patient advocacy, professional society or other meetings.

—
