Company: Thermo Fisher Scientific

Location: Warrington

Category: other-general

: Formulation of product. Depending on product type, there may be a requirement to formulate in a clean-room environment wearing appropriate personal protective equipment. •May be required to perform quality control testing of intermediates and finished goods. Records test results on work orders and may, depending on product type, either: 1) self-approve and release materials on QA and manufacturing systems, or 2) recommend release status to manager and, after review by manager, release materials on QA and manufacturing systems. Cleans and sanitises laboratory equipment. Calibrates basic laboratory instruments and is responsible for ensuring calibration is performed on time by monitoring and updating the calibration schedule for equipment in a designated area. Leads process development improvement projects and contributes towards the resolution of quality issues. Maintains laboratory housekeeping standards and consumable supplies. May be required to train others, once trained, to the appropriate level in a particular operation. Responsible for supporting and complying with Company safety and hazardous waste management program, including following safe hazardous waste handling and good housekeeping. Ensures and maintains clean, orderly and safe laboratory work areas. Safety equipment and special precautions are required when working in the manufacturing/laboratory areas. Minimum Qualifications: Experience in a production environment is preferred, but not essential. Excellent computer skills proficient in Microsoft software application use. Ability to follow written and verbal instructions, meet targets and complete necessary paperwork. Good manual dexterity. Ability to work well in teams. Experience in manufacturing in a clean room production environment preferred, but not essential. Flexible approach to work with possible change of duties at short

notice. Requires the use of office equipment, including operating a computer terminal through out the day and involvement in continuous improvement opportunities. Experience using Microsoft Office packages at an intermediate level. At Thermo Fisher Scientific, each one of our 50,000 extraordinary minds has a unique story to tell. Join us and contribute to our singular mission—enabling our customers to make the world healthier, cleaner and safer.
