

Staff Machine Learning Engineer

[Apply Now](#)

Company: trg.recruitment

Location: Greater London

Category: other-general

Title: Staff Machine Learning Engineer Type: Permanent Location: London - 2-3 days per week Salary: £120k Join us in an opportunity to lead a talented team of 5-10 machine learning engineers and data scientists in a global project at the intersection of data and sustainability. As the Staff Data Scientist and Team Lead, you will provide technical leadership and strategic direction to the team, designing and implementing AI solutions for sustainability. We seek a ML leader with a proven track record: 7+ years of experience leading the design, development, and deployment of complex machine learning solutions. Expertise in product experimentation, Causal AI, and advanced statistical techniques. Deep knowledge of data science tools (e.g., scikit-learn, TensorFlow, PyTorch) and big data technologies (e.g., Spark). Proficiency in Python for data manipulation, model building, and scripting. Strong communication skills to present findings to both technical and non-technical audiences. This role is perfect for a data science leader who thrives in collaborative environments and is passionate about innovation. To apply, please submit your current CV, or reach out to me on LinkedIn (Bryn @ trg) and we can schedule a call.
