

Street Lighting Electrician

[Apply Now](#)

Company: Balfour Beatty

Location: United Kingdom

Category: other-general

About the role

Our team shape projects that connect communities and impact daily life for millions. Join our team as a **Street Lighting Electrician** and build new futures.

You'll be working on one of our existing Highway Maintenance contracts, installing Electrical equipment on the Highway network including Streetlighting columns and illuminated signage. You'll attend and make safe any electrical emergency on the network on an out of hours rota.

What you'll be doing

Ensure full compliance with Highway Electrical Association competency scheme.

At all times proactively engage with and adhere to company procedures with regards to health, safety and quality and where applicable to ensure all team members do likewise.

Assist in ensuring all works are carried out on time, safely.

Report and record all defects or hazards immediately, using the recognised platforms and systems

Ensure necessary information is provided to all parties (client, staff, designers, operatives, sub-contractors, suppliers, etc) to ensure safety, construction, maintenance, and costing.

Ensure effective and efficient scheme delivery.

Ensure that all plant, equipment, and electrical systems are regularly inspected, and that all defects are reported to the person responsible for the workplace and a record is maintained.

Ensure all accidents, incidents and near misses are reported in accordance with BBLP policy and co-operate with any investigation.

Attend regular toolbox talks relevant to current/future site activities.

Attend daily start of shift briefings prior to starting work and that regular toolbox talks relevant to current/future site activities take place.

Maintain own level of knowledge and competency in relation to Safety, Health and Environmental management and responsibilities.

Carry any personal competency cards in line with BBLP policy, e.g., CSCS.

Who we're looking for

Experience of a similar role;

The ability to communicate with all levels, from senior management to operational staff;

Ability to identify problems and resolve promptly and efficient;

Driving licence;

IPAF 1b + Harness and Fall Arrest training;

ECS Card to relevant level;

Emergency First Aid (1 Day) training;

G39 + 214 Safe Isolation;

HEA card.

Why work for us

Day in, day out, our teams deliver amazing projects in challenging conditions; developing, managing and maintaining the vital infrastructure and public spaces that modern economies, societies and communities rely on.
