Category: architecture-and-engineering

Structural CAD Technician

Permanent

Cambridge

£35,000 - £45,000 (Depending on experience)

23 Days Annual Leave, Pension Scheme, CPD + more

You will be pleased to hear about an exciting new Structural CAD Technician role with a very well-established engineering consultancy in the Cambridge area working on a variety of projects including, mainly residential work from the small to the medium, working on high end individual units right up to a multiple of units in a scheme. On top on this they work on education and commercial projects in the Cambridge area.

The successful Structural CAD Technician will be:

At least 5-10 years experience in a similar role

An expert within AutoCAD

Used to working to a timely manner and hitting deadlines

Knowledgeable on how a building goes together from a construction standpoint

Experienced enough to work with minimal supervision

Motivated to learn and help the business grow

For this Structural CAD Technician role, you do not need to know how to use Revit, however, being an expert in AutoCAD is a must.

You will have the luxury of working in a well-run and well-established company with high levels of security due to their extended list of repeat clients. A great environment to work in and the staff are all friendly and collaborative, enabling top performance.

If you want to hear more about this Structural CAD Technician role, then do not delay and send through your CV today!
