Structural Technician Position Overview

Assisting and empowering a dynamic team of engineers and technicians dedicated to the success of residential housing projects.

Simultaneously managing multiple projects, ensuring each phase is executed punctually and upholds exceptional standards.

Proficiently working both autonomously and in collaboration with junior staff, providing meticulous oversight, including thorough examination of drawings.

Creating intricate substructure and superstructure drawings and sketches with mastery in AutoCAD.

Delivering regular progress reports to Associates/Partners, fostering transparent communication.

Swiftly addressing technical and construction inquiries to maintain project momentum.

Actively participating in project and site meetings/inspections.

Expertly reviewing and offering insights on third-party designs and drawings to enhance project excellence.

Structural Technician Position Requirements

While qualification to HNC level would be a plus, it's not a strict requirement.

A minimum of 2 years of pertinent experience

Proficiency in AutoCAD is a must.

Revit experience will be highly beneficial

A strong emphasis on maintaining high-quality standards while also thriving in a fast-paced, collaborative, multi-disciplinary environment.

Demonstrated ability to effectively handle multiple projects concurrently.

Experience in building structures and knowledge of steel, concrete, timber, and load-bearing masonry structures would be advantageous

Expertise in CAD and project management within a related sector
