

## Structural Technician

[Apply Now](#)

Company: HAYS

Location: Speke

Category: other-general

Structural Engineering Technician based in Speke, either CAD or Revit

### **Your new company**

Your new company is an international multidisciplinary consultancy creating the spaces and places where people live, play and work. Designing buildings for key clients in the residential, commercial, education, industrial and health sectors for prestigious clients including the Metropolitan Police Service and London Borough of Hackney and University of Manchester create an incredible stream of work across every region of the UK.

### **Your new role**

Your new role will be that of a Structural Technician, joining the award-winning Building Structures team based in Speke. You will be responsible for the production and checking of structural engineering drawings, 3-dimensional building models, reinforcement schedules and specifications for buildings and associated structural engineering works. Occasional you will be required to undertake site visits, to carry out surveys and inspections.

### **What you'll need to succeed**

In order to succeed you will need a minimum of around 4 years' industry experience, although more important is experience producing drawings in the commercial, residential, education sectors to a high standard. AutoCAD experience is essential and experience of operating Revit/Navisworks is highly desirable.

You will need a HNC or BTEC or equivalent qualification in Civil or Structural Engineering, Building or Construction to succeed in your application.

### What you'll get in return

In return you will receive a highly competitive salary in line with your previous experience, ranging between £35,000 to £50,000 for senior technicians with BIM modelling experience. Flexible/hybrid working is promoted in your new organisation allowing work from home days every week, as well as a 37.5 hour working week. You will receive 26 days annual leave + bank holidays (with the opportunity to buy or sell them).

### What you need to do now
