

Supply Chain Manager – Automotive Aftermarket

[Apply Now](#)

Company: Glen Callum Associates

Location: Hoylake

Category: other-general

The Role

You will be responsible for overseeing all aspects of inventory management including stock control, procurement and supplier relationships.

Inventory Management Develop and implement strategies to optimise stock levels and minimise excess inventory. Conduct regular stock audits. Monitor inventory turnover rates and identify opportunities to improve efficiency.

Procurement Source and purchase automotive parts from various suppliers, negotiating favourable terms and pricing agreements. Evaluate supplier performance and maintain strong supplier relationships. Analyse market trends and product availability to mitigate supply chain risks.

Stock Control Track movement of parts, monitor stock levels and prevent stockouts. Coordinate with sales and operations to forecast demands and adjust inventory levels. Implement measure to reduce stock shrinkage and identify causes of any discrepancies.

The Candidate

A proven background within an inventory, supply chain or procurement role.

Previous experience of the automotive parts industry, this could be within a motor factor or a multi franchise dealer parts operation.

A first-class understanding of supply chain principles, inventory control and procurement strategies.

The ability to negotiate and influence through strong communication and interpersonal skills.

A proficiency in inventory management software and Microsoft Office, in particular Excel.

An analytical mindset with attention to detail and a problem-solving outlook.
