Company: Charles Taylor

Location: United Kingdom

Category: other-general

Background

Criterion Adjusters was established to provide a specialist claims service for High Net Worth, fine art and antiques markets and we remain focused on and committed to this sector. However, our range of services has expanded considerably over the years and we now handle complex household claims and commercial losses, particularly in the Real Estate sector. We are entirely focused on the requirements of our clients and their customers and we are very proud to work for most of the leading High Net Worth insurers and underwriters in the UK.

Criterion is a company of Charles Taylor Adjusting, a leading global provider of loss adjusting services across the aviation, marine, natural resources, property, casualty, technical & special risks sectors.
