

Sustainability Reporting Analyst

[Apply Now](#)

Company: McArthurGlen Group

Location: United Kingdom

Category: computer-and-mathematical

What you'll be doing...

You will support our McArthurGlen Corporate Sustainability Team in providing efficient and effective reporting for the business. This will include ESG reporting and tracking of internal initiatives across 25 centres in alignment with McArthurGlen sustainability strategy.

You will play a key role in advancing our commitment to environmental and social responsibility. The Sustainability Reporting Analyst will be supporting data collection, analysis related to our organization's sustainability performance. This role involves collaborating with cross-functional teams to develop and implement strategies and projects that enhance our environmental, social, and economic performance.

You will also help develop the appropriate metrics/KPI's in order to deliver internal periodic reporting against all sustainability commitments and aligned with stakeholders ESG reporting requirements. Knowledge of ESG frameworks (e.g. GRI, SASB,) and sustainability standards and certifications (e.g. GRESB, BREEAM in-use) would also be a significant advantage.

Why McArthurGlen?

- We offer you a competitive salary and attractive performance bonus of up to 20%
- You are entitled to a wellbeing allowance (a set amount you can claim towards yoga, gym equipment or anything that promotes your wellbeing)
- 2 volunteering days per year
- Special discounts in our Designer Outlets
- Hybrid working - we do all we can to accommodate flexibility.
- Be part of an international organisation, with the opportunity to work with colleagues across

eight countries.

- Access to LinkedIn learning from day one with access to over 16, courses
- An environment enabling your growth including internal moves, cross country projects and international secondments as well as a calendar of core development opportunities and bespoke learning.
- Values-based culture – our colleagues make things happen in an inclusive and collaborative environment where we enjoy coming to work. We pursue excellence, make a difference and love to innovate.
- Over 89% of our colleagues would recommend us as a good place to work (according to our most recent internal engagement summary)

To be successful you'll bring...

- Bachelor and/or Master degree in technical and scientific studies concerning environment, energy or business, statistics or a related field.
- Strong analytical and data analysis skills.
- Knowledge of key concepts of environmental management (waste, water, CO2, air emissions)
- Proficiency in sustainability reporting frameworks such as GRI, SASB is desirable.
- An understanding of GRESB and BREEAM In-Use assessment process would be advantageous.
- Good communication and presentation skills.
- Ability to work independently and collaboratively in a team environment.
- Fluent in spoken and written English.

What to expect...

- We commit to replying to all applications, feel free to get in touch if you'd like an update
- You will have a main point of contact within our Talent team
- We're a collaborative business: it's important for you to meet as many people as you can during the recruitment process.

We're also aware that your time is precious, so aim to keep to a two-stage process wherever we can
