What you'll be doing

Lead as the main technical architect, collaborating with customers, stakeholders, and partners to align designs with Solution Design Authority principles.

Own technical design artifacts for complex technological requirements, covering 'as-is,' 'to-be,' and transitional states.

Support Solution Design Authority and stakeholders in shaping and qualifying bid opportunities, offering expertise throughout the engagement life cycle.

Address in-contract customer requests, providing subject matter expertise and delivering technical outcomes like proof of concept and design collateral.

Contribute expertise to the Defence Assurance Board, evaluating design changes before integration.

Manage technology costs, risks, and dependencies for new business opportunities and customer requests.

Act as a tier 4 expert for design/fault resolution, supporting operational teams and staying updated on industry trends.

Skills and Experience

• Working knowledge and experience of networking vendors technologies, solutions, and products (such as: Cisco, Juniper).

- Working knowledge and hands on experience in designing, configuring, testing, and commissioning IP networking solutions.
- Preferably have the following professional training and/or accreditations
- Experience of identifying risks, impact, mitigation, and problem-solving in enterprise network solutions.
- Experienced in communicating IP network technologies to key stakeholders with varying technical knowledge.

- Access to 100's of retail discounts including the BT shop

Flexible Working

This role offers a 3 together, 2 wherever working model. This means you are required to be at your contractual location 3 days a week with 2 flexible days per week.

With over 175 years of heritage, BT is now the flagship business brand of BT Group.

We've brought together our best people and capabilities into a B2B powerhouse serving 1.2 million business customers internationally. We're a global leader for secure connectivity

and collaboration platforms for businesses of all shapes and sizes, from big household names and government departments, right through to sole traders and new start-ups. But it's not just

the technology that matters, it's what it can do to help them build stronger, smarter, more secure businesses. We value diversity and inclusion and believe in making a positive impact. We connect for good by championing digital inclusion and equipping people, businesses, and communities with digital skills to thrive. As a member of our team, you will be part of an organisation that celebrates difference, fosters innovation and provides you with opportunities to be your best. With millions of businesses relying on us daily, joining BT means you can be part of a diverse and multi-skilled team that makes a significant impact to society. A FEW POINTS TO NOTE: Although these roles are listed as full-time, if you're a job share partnership, work reduced hours, or any other way of working flexibly, please still get in touch. DON'T MEET EVERY SINGLE REQUIREMENT? Studies have shown that women and people who are disabled, LGBTQ+, neurodiverse or from ethnic minority backgrounds are less likely to apply for jobs unless they meet every single qualification and criteria. We're committed to building a diverse, inclusive, and authentic workplace where everyone can be their best, so if you're excited about this role but your past experience doesn't align perfectly with every requirement on the Job Description, please apply anyway - you may just be the right candidate for this or other roles in our wider team.
