

## Technical Operations Applications Engineer

[Apply Now](#)

Company: Toyota Material Handling Manufacturing

Location: United Kingdom

Category: other-general

We are looking for a Technical Operations Applications Engineer to join Technical department in Warrington.

### **About the role**

The role involves providing technical product, or special product modification / applications support, as required, to the Sales Operations, Workshops, Rental and nominated Dealers.

On a day-to-day basis this is what you would be doing:

Advise on specification and configure trucks for operation in VNA applications.

Compile and process orders for any special items that are not in the company product price list.

Design, develop and document local modifications to a degree of detail that allows equipment to be produced quickly and cost effectively.

Provide quotations for special product modifications to Sales, Dealer, internal or third party support requests.

Ensure that all product configurations and modifications meet the requirements of the Machinery.

Here is a quick tick list for the other skills we are looking for:

Excellent communication skills both verbally and written

Good team working skills

Good organisation and planning skills

Time management skills

Good IT skills

Ability to work to deadlines

We offer a competitive salary; an attractive company pension, free parking and vending machines at our centres, generous company sick pay, voluntary critical illness cover, free eye tests and flu jabs and access to a 24/7 employee assistance programme. We also reward our team members with a scheme that includes discounts for major shops, gym memberships, discount on family days out.

We will provide you with industry leading technical training to ensure you have the knowledge and all the tools to do your job. Plus, there are plenty of opportunities to progress your career and develop your skills within Toyota.
