Technical Project Manager required to work for a fast-growing technology business based in Central London. However, due to Covid-19, this could literally be based anywhere in the UK.

The ideal candidate would be someone either from a Software Development background who has moved into Project Management or someone who has been part of delivering significant Development related projects with some QA exposure. It is preferable that you have some exposure to Mobile Applications too – whether this be hands on or from a Project Management perspective.

We could also consider candidates from a Mobile Release Management background who has moved into Project Management. Read on for more details…
