

Technical Skills Coach (Data Science and AI)

[Apply Now](#)

Company: QA Higher Education

Location: United Kingdom

Category: arts-design-entertainment-sports-and-media

The role: Technical Skills Coach (Data Science and AI)

Location: Remote/Home-based

Contract: Full time, 37.5 hrs per week

Package: competitive + benefits

Are you looking for your next exciting career move as a skills coach specializing in Data Science/AI? Or maybe you have sufficient industry experience in Data Science, a passion for AI and would like to utilize your skills coaching others?

If so, QA could be the company for you! We're the UK's leading digital skills provider in the higher education field; experts in up-skilling and other talent needs for public sector and large enterprises. Want a supportive environment with flexibility promoting a good work/life balance? Don't worry, we offer that too!

What is my purpose in this role?

Working within the QA Degree Apprenticeship team, you will be providing coaching and mentoring to our Data science and AI students to successfully complete their Degree Apprenticeship programme.

What will I be doing?

*You will be managing, with some guidance, a targeted number of learners throughout

their learning journey

*You'll be encouraging learners to apply their newly acquired skills and knowledge in their day to day roles

*You will also ensure learners have clear objectives termly to support their timely progression.

*You'll provide coaching via the appropriate methods to best support individual learner needs

*You will be responsible for supporting learners through their learning journey to successful completion of their assessment

*You will observe, review and provide feedback on evidence produced by learners throughout their Apprenticeship, to support completion of Work Based modules

*You'll also identify ongoing learners who are at risk of failing to meet the requirements of Gateway and assessment.

*You'll proactively communicate with the Academic team, via direct contact and system engagement as appropriate, at all times to ensure learner support & progression.

What do I need to succeed?

*An industry background in Data Science

*A passion for and a strong interest in AI

*You should hold a MSc in a technical subject

*Coaching experience is desirable but not essential
