We are keen to promote from within, so if you are looking for a long-term career with advancement opportunities you will find them with us.

We provide a wide range of services including day care and inpatient and outpatient services.

The main activity is elective (planned) surgery, and more complex procedures such as cardiac and spinal surgery are supported by the onsite critical care facilities.

The hospital works in partnership with local NHS acute hospital trusts, for example in recent provision of robotic surgery, and there is a large refurbished outpatient department along with extensive diagnostic imaging services.

We provide highly specialist services which makes us unique from many other private hospitals offering a range of treatments and surgery not undertaken elsewhere in private practice.

We deliver to the highest standard of care to patients with excellent reported patient outcomes in cardiac surgery, putting patients at the heart of everything we do.
