

TIG Welder Fabricator

[Apply Now](#)

Company: Actemium UK

Location: Daventry

Category: architecture-and-engineering

TIG / MIG Welder Fabricator

Actemium specialise in the bespoke design and fabrication of process related projects working to and operating under BS EN1090 classifications. We are looking to appoint a competent MIG/TIG Welder / Fabricator to join our team.

Competitive Salary + Pension + Healthshield + Share Scheme

Reporting directly to the Manufacturing/Works Manager, Welder Fabricator duties will include:

- * Being able to read and interpret engineering drawings or product specifications including the understanding of welding symbols to determine build sequence, methods of fabricating & assemblies.
- * Layout and mark dimensions and reference information on material.
- * Complete weld set-ups and welding using MIG/TIG
- * Own tools are required

General:

- * Ensure tolerances and parameters are met to satisfy quality and output.
- * Prepare / process materials prior to assembly.
- * Trim, file, grind and deburr surfaces.
- * Tack welding fabricated parts together.
- * Plating & Fabricating ferrous steels.
- * Check products for compliance with specifications and quality requirements.
- * Repair / rework as required.

- * To check welding plant / equipment prior to and after use highlighting any faults/ defects to the Fabrication Shop Supervisor.
- * Ensure production timings are met.
- * Reinstate the work area following engineering activities.
- * Follow company rules and adhere to procedures & Health and Safety standards. Work as part of a team to produce orders on time.

Welder Fabricator Experience: (Essential):

- * Time served welding on fabrications working with mild steel
- * Experienced in MIG/TIG welding with the ability to read engineering drawings
- * Worked on various material gauges, with single and multi-run welds.
- * Other related fitting experience would be advantageous.
- * Competent to work in silo from start to project completion

Skills:

- * Weld to a high standard (Fillet & Butt), to coding standard.
- * Be skilled with various plating & fabrication techniques
- * Demonstrate the safe use of associated equipment including abrasive wheels, grinders etc.
- * Good communicator at all levels & Ability to work as part of a team
- * Keen attention to detail & Knowledge of Health & Safety Legislation
- * Ability to work in a safe manner with minimal supervision

Qualifications: (Desirable):

- * Time served apprentice
- * City & Guilds Parts 1, 2 & 3 or BTEC ONC equivalent qualification
- * NVQ Level 3 in fabrication & Welding / Plating & Welding
