Tool Room Engineer

Telford

Continental Days (4on, 4off Days Only - 07:00-19:00)

£36,000 + Overtime

We are looking for a motivated Tool Room Engineer to join a market leading building product manufacturer. Reporting directly to the Tooling Supervisor you will be a key member in ensuring the production facility is kept running. You will be involved in all aspects of planned and reactive maintenance within their operation. With progressive training and development this company is always looking to enhance its employees and their skill sets, whilst additionally being supported by a welcoming team of engineers. The position will appeal to a strong tooling engineer looking for their next challenging role within in a secure and stable company.

Role Description:

- * Interpret Engineering drawings to conduct repairs and modifications on Extrusion tooling & use CAD software to create designs for tools and mechanical parts.
- * Utilise workshop machinery such as CNC wire eroders, laser welder, vertical milling machines,

centre lathe and surface grinders.

- * Assist when required with any tooling matters.
- * Complete tasks on time and efficiently.
- * Ensure quality is achieved through attention to detail.
- * Work with minimum supervision.
- * Work within a team Environment.
- * Maintain a very high level of housekeeping at all times in the workshop and around machines.

Skills and Qualifications:

- * Level 3 qualification in Engineering
- * Engineering aptitude.
- * Experience of CNC wire erosion and laser welding (Preferable)
- * Good level of numeracy and literacy.
- * Ability to use a PC to an operational level.
- * Time served apprentice (preferable)

In return for your commitment my client offers a stable and secure career for a technically motivated engineer. If you feel this is of interest, please send your CV directly to Jordan Hindhaugh at or call for a confidential discussion on (phone number removed).
