Must be willing to travel and lodge away due to the location of work.

You will need to have the following:

Experience in track renewals and maintenance work.

In date PTS, track induction competency.

Small tools ticket desirable

Full UK Driving Licence

About RSS Infrastructure

RSS Infrastructure (RSSI) is a multi-disciplinary service provider for the rail and construction sectors. We have an award-winning reputation for developing solutions to improve safety and productivity.

Founded in , RSSI provides a range of services to the infrastructure sector including; arboriculture, construction and civils, magnetic track safety services, overhead line electrification, possession management, safety-critical resources, signalling, and welding.

RSSI is also the only company in the UK that offers Track Warning Systems.

RSSI has more than full-time employees and a large contingent workforce that covers most of the UK. It operates from offices in Birmingham, Doncaster, and Cwmbran.

As an equal opportunities employer, RSSI does not discriminate based on ethnicity, race, religious beliefs, age, disability, gender, or sexual orientation. As a proud signatory to the Armed Forces Covenant, we encourage reservists and veterans of the Armed Forces to apply for positions. For more information on how we strive to create equal opportunities and encourage under-represented groups to apply for roles and join us, visit our parent company website – Work for Us.
