Trainee Project Manager – Engineering 29k + Overtime

South UK ABJ7025

A Trainee Project Manager in engineering is urgently required for a leading organisation in the UK. As a trainee project engineer you would join a Project Management team critical to the business as the main interface between the company and key customers co-ordinating and expediting all aspects of projects including planning, managing budgets, coordinating the team and ensuring successful delivery

This is an amazing opportunity to develop skills as a project engineer and gain those crucial project management skills in industry and adhering to quality and safety will make a real difference.

Main Duties and Responsibilities

- * Develop project plans and schedules, manage project budgets, procurement and resource allocation
- * You'll lead the team monitoring progress, identifying as well as mitigating risks and ensuring all work is safe compliant, delivered at the right quality standard and is profitable

* You'll familiarise yourself with all aspects of the projects that you manage from specification, tender and all of the associated documentation

* Ensuring all issues are captured you'll manage, monitor, maintain and report the progress and financial achievement of the project to the leadership team

Qualification and Experience

* An Engineering qualification

* Experience in project managing or engineering mid to large-scale projects e.g., marine, oil and gas , renewables; ship repairs

* Competency using MS Office and planning tools e.g., MS Project or similar

* Leadership, problem solving, risk management and relationship management skills

* Procurement and budget management skills including data analysis, excel and management reporting capability with accuracy and attention to detail

* A strong planner and organiser comfortable making decisions to meet targets

Salary based on experience and what you will bring to the - Attractive benefits including 25 days annual leave plus bank holidays, 4% pension contribution. Overtime 1.5 x
