Click here to

read about The Greggs Pledge * Colleague Networks - internal groups where colleagues and their allies can share their own experiences, offer feedback on the way we do things at Greggs, and provide support to one another *About the role* * This is a full-time role, however flexibility in this will be considered * We know that having a work-life balance is important, so we offer our colleagues as much flexibility as possible in line with the needs of their role* This is a national role, so you can be based anywhere in the UK with travel required to visit our supply sites when required. *What you'll do* * Act as a key and effective member of the Central Logistics team, driving efficiencies and continuous KPI improvement. * Utilise your knowledge of primary trunking operations, to optimize routes, improve delivery times, and ensure the smooth and cost-efficient flow of goods between distribution centres and regional hubs. * Identify and Implement best practices including load consolidation and backhaul opportunities to optimise efficiency.* Ensure that all plans delivered are fully legally compliant and also comply with our internal standards to reduce driver fatigue which are over and above the legal minimum.* Provide support and analysis with our telematics and tracking systems * Communicate with and influence regional teams and head office colleagues with respect to cost opportunities and performance.* Ensure there is a clear focus on giving our customers the best level of service we can, both internally and externally. * Drive change initiatives through the logistics organisation and liaise with relevant stakeholders to ensure successful delivery of projects. *About you*You will fit right into this role if you:* You're able to demonstrate your specialist knowledge and experience in the primary transport or general haulage industry* You have experience of managing people in operations or planning, preferably both.* You have experience with transport and warehouse management systems. * You have good knowledge of industry telematics solutions and process automation. * You're proficient in using Microsoft 365 * You preferably have some experience of using Paragon planning software * You're skilled in managing data, data analysis and solving problems and have an excellent working knowledge of transport and logistics systems * You're able to diagnose and implement practical process improvements with a strong customer focus * You're self-motivating and results focussed, with a desire for continuous improvement * You have good planning and organisation skills* You're comfortable communicating both verbally and in writing with a wide variety of stakeholders * You have a good understanding of the UK and EU legislation relevant to the road transport industry * Want to develop and are ready to work alongside some great people and have lots of fun on your Greggs journey!*About Greggs*Here at Greggs, we love what we do, and we have

fun! What makes Greggs so special is our culture – the way we are, the way we behave and the way we support each other.

We're hard-working, but above all else we're family; and it doesn't matter who you are, where you're from or what your favourite bake is, we'd love you to join us! We want everyone to feel welcome at Greggs and our colleagues to be able to be themselves at work, whatever their background, preferences, or views.

We'll make sure you have the skills and knowledge you need to have a great career with us.
