Urban Planner / GIS Specialist

[Apply Now](#)

Company: Bjarke Ingels Group

Location: London

Category: life-physical-and-social-science

BIG is a group of 750+ architects, engineers, urbanists, inventors, researchers and business minds from all over the world who are based in studios in Copenhagen, New York, London, Barcelona, Shenzhen, Los Angeles and Oslo.

Our built work ranges from diverse urban playgrounds and Michelin-starred restaurants to affordable housing that feels everything but, and a school sitting in the verdant fjords of the Faroe Islands. Our vision spans traveling at supersonic speed with Hyperloop One to living in floating cities that adapt to climatic changes, and eventually, colonising Mars.

While we are led by a group of outstanding Partners, Directors and Associates - a flat hierarchy and collaborative spirit are essential to our ecosystem. We share our collective knowledge and expansive network through study trips and educational workshops – BIG Schools offer in-house lessons, while the BIG Picture brings in industry experts to inspire and invigorate. We are infectiously ambitious and unified by the shared mission to craft the world we want to live in, and to give form to our future, one project at a time.

The position of Urban Planner / GIS Specialist in our London office has recently become vacant, and we are looking for an experienced, highly motivated individual to take on the role.

Primary Responsibilities

Utilise existing tools and data to perform spatial analytics in GIS

Support the wider Design Technology team in understanding GIS's role in supporting business activities

Technical coordination and development related to strategic planning (asset management related), regulatory frameworks, technical standards, and information, etc.

Review project documents including schedules, surveys, and deliverables, and leverage this information to deliver technical services

Lead, manage and communicate the technical aspects related to GIS deliverables to internal and external parties

Support project leaders in technical communication with clients

Interpret and apply government codes, ordinances, and regulations

Assist with updates and file coordination of structure plans, transportation networks, utility corridors and land development regulations etc.

Offer end-user support and guidance on GIS systems and processes

Create and manage CAD/GIS workflows

Minimum Requirements

Bachelors and/or Masters degree in Urban Planning, Architecture, Geography, or related discipline

A minimum of 6 years of demonstrable experience in town planning, preferably within Middle East

Proven expertise in delivering successful planning projects

Excellent communication, negotiation, and leadership abilities.

Proficiency in planning software and GIS tools

Rhino and AutoCAD are desirable

Application

Please submit your CV and cover letter. We are looking to fill this position as soon as possible. Interviews are conducted on an ongoing basis, and the job ad will be taken down when the right candidate has been found.

Diversity has been part of our DNA since BIG's foundation. A multitude of cultures and backgrounds creates a new point of reference which leads to amazing insights. At BIG, we value, celebrate and support diversity because it makes our team, work and the built environment better. We are proud to be an equal opportunity workplace and take affirmative action to employ equally regardless of race, colour, ancestry, religion, sex, national origin, sexual orientation, age, citizenship, marital status, disability, or gender. We are committed to promoting equal opportunities and creating a workplace culture in which diversity and inclusion is valued - if you have any questions about this vacancy (or require any reasonable adjustments to be made to the process due to a disability), please specify this in the designated section of the application form.
