

## Warehouse CNC Operative

[Apply Now](#)

Company: Odin Recruitment

Location: Poynton

Category: other-general

I am actively seeking a quality focussed Warehouse Operative for a reputable and expanding company in Manchester South.

Ideally you will have working experience of a Laser Operative and to work an overhead crane (there may be training available for the crane).

This position is ultimately a permanent NIGHT shift, however all training will take place across both day shifts (Apply online only) and (Apply online only).

There will be loading and off-loading in/out trailers and the movement/organising of heavy stock required and conducted within the company's safe practice policies.

You can expect drive road based vehicles around the site as instructed.

This is an excellent career opportunity to join a forward-thinking distributor whom can offer on-going training, excellent career opportunities and an outstanding reputation for staff retention.
