

## Workshop Engineer

[Apply Now](#)

Company: Toyota Material Handling Manufacturing

Location: United Kingdom

Category: other-general

We are looking for a Workshop Engineer to work within our Operations department to maintain and service a wide range of materials handling equipment. This role comes with a competitive salary, an attractive company pension, and the opportunity to work for great company.

### **About the role**

The role involves providing the assembly maintenance repair and service of a wide range of material handling equipment including forklift trucks and warehouse equipment. On a day-to-day basis this is what you would be doing:

Building, servicing and maintaining used demo and short-term rental trucks.

Ensuring trucks meet safety standard requirements.

Completing and updating work sheets.

We are looking for somebody who has mechanical and electrical engineering experience working with industrial equipment or vehicles. Material handling experience would be beneficial, but training will be given.

Here is a quick tick list for the other skills we are looking for:

Mechanical and electrical qualifications or experience.

Excellent communication skills.

Ability to follow company procedures.

We offer a competitive salary; an attractive company pension, free parking and hot drinks at our centres, company sick pay, voluntary critical illness cover, free eye tests and flu jab and access to a 24/7 employee assistance programme.

We will provide you with industry leading technical training to ensure you have the knowledge and all the tools to do your job. Plus, there are plenty of opportunities to progress your career and develop your skills within Toyota.
